

Greenplate All-In-One Solar Batten Light 15Watt

Greenplates All-in-One Solar Batten Light uses the latest innovative technology. By incorporating both the Solar Controller and Battery inside the light fitting, installation time and cost are dramatically reduced. The 15Watt LED light provides an output of 1800 Lumens with 4 days of battery storage.

The All-In-One Batten Light comes with a simple mounting system and your choice of either a glass module or vandal resistant flexible module. This kit is perfect for lighting pathways, shelters, building entrances and much more.

Product Size: 92mm x 84mm x 900mm

LED: 384pcs of SMD2835 Phillips LED

Rated Power: 15Watts / 1800 Lumens

CCT: 6000K

Beam Angle: 120 °

Sensor Type: Microwave

Built-in Battery: 468WH 12V 39AH

Controller Charging Mode: MPPT

Working Temp: -20 ° C / +55 ° C

IP Rating: IP65

Warranty: 2 Years

Default Mode: 12Hrs running @ %100

Mounting Brackets Included

One remote controller for adjusting mode settings.

Excellent Design:

IP67 Weather Rated, High Output 130LM/W, MC4 Connectors, 2 Year Warranty.

Remote Setting:

Lights can be easily programmed pre and post installation via remote.

Motion Sensor:

Built in Microwave Sensor with large detection range included.

Lithium Battery:

Deep Cycle, long lifetime lithium battery with smart BMS protection. Large battery allows for 4 days of usage without charge.
