

Greenplate Hinged BBQ Cover

Key Features:

- Elegant yet robust stainless steel design.
- Available pre and post purchase of the BBQ. Fixed via the perimeter studs located around the edge of the cooking plate.
- Dual pair of stainless-steel friction hinges provides soft closing with ability to safely fix open in various positions.
- Internal aluminium shield reduces heat transfer from the BBQ plate to the cover.
- Includes stainless steel security fixings and handle. Ensuring structural longevity in all environments.
