

CUSTOM CABINET MANUFACTURING

At Greenplate, we pride ourselves on offering a comprehensive custom design and manufacturing solution, empowering clients to bring their unique BBQ cabinet visions to life. With our consultative approach, in-house design expertise and state-of-the-art manufacturing capabilities, we transform concepts into reality.

KEY FEATURES

Collaborative Approach

Our consultative approach means we work hand in hand with our clients to understand their specific requirements and vision.

In-House Design Excellence

Greenplate boasts an in-house design team that excels in turning ideas into tangible designs. We leverage our expertise to ensure every detail aligns with your end goal.

Comprehensive Solutions

From concept to creation, we offer end-to-end solutions. Our extensive manufacturing capabilities allow us to materialise your ideas, making them a reality.

Versatile Materials, Exceptional Results

Greenplate has a proven track record for working closely with architects and open space designers. We've harnessed an array of base materials, including composite, stainless steel, aluminium and recycled plastics, to craft robust and durable BBQ cabinets that exceed our clients' expectations.

CAD Designs for Precision

For clients seeking precision and insight, CAD designs are available upon request, offering a detailed blueprint of your custom cabinet project.

Embrace the future of outdoor cooking with Greenplate Custom Cabinet Manufacturing. Whether you're an architect with a unique vision or an open space designer seeking innovative solutions, we're here to collaborate, create and elevate your outdoor cooking space.
